Guideline of Viewing Abstract Book and Bookmarking the Sessions or Papers

Other Features

Program List

View all the presentations here and bookmark them. Scroll down for other session or click the index button on the top.

The screenshot shows a navigation bar with filters: Plenary Session, Keynote Presentation, Symposium, Concurrent Contributed Papers, and Poster Session. Below this, 'Session 1' is highlighted. A presentation titled 'Recent development of case-only studies in Asia-Pacific region' is shown with a 'Bookmark' button and a 'Details' link. Below it, two presentations are listed: 'PL1-1 How to detect and remove biases specific to case-crossover studies' by Kiyoshi Kubota and 'PL1-2 Co-presenter: Self-controlled case series: the best thing since sliced bread?' by Angel Wong. 'Session 3' is also visible, featuring 'Translating pharmacoepidemiology research into real-world practice in the Asia-Pacific region' and 'PL3 Translating pharmacoepidemiology research into real-world practice in the Asia-Pacific region'.

Search with Title

Enter keywords to search for the presentations. (One vocabulary at a time.)

The screenshot shows the 'Search Program' interface. A search bar contains the keyword 'cancer'. Below the search bar are 'Search' and 'Clear' buttons. The search results are categorized under 'Cancer' and include: 'O209 Risk of lung cancer with concomitant use of ACEi and DPP4i' by Bin Hong, 'O210 Treatment modalities for primary head and neck cancer in Japan' by Grace Hui-Min Wu, and 'O222 Cost-effectiveness of universal screening for Lynch syndrome among colorectal cancer patients in Vietnam' by Cong Bang Huynh. A 'Cost Effect./Economic Evals.' section is also visible at the bottom.
